Researcher

SPI is looking for individuals interested in research. Ideally, one might have experience in or an understanding of information technology concepts and solutions or knowledge of government in general. Individuals selected will perform research activities such as reviewing planning documents and plans, reading legislation and regulations, and web searches as well as conducting telephone interviews with decision-makers in government to gather information. Some researchers will also develop and draft deliverables for clients.

Candidates should have good written and oral communications skills and be comfortable with Excel and Word programs. This position will have flex time and some researchers may work an as-needed basis.

This position will provide valuable research experience and insight into the government procurement arena. Please send resume and/or cover letter to jobs@spartnerships.com. Please include "Researcher for National Projects" in the subject line.

Research Assistant

SPI is looking for detail-oriented individuals to research specific information on state agencies and local governments in other states. This position requires making calls to governmental entities to determine appropriate contacts and information of interest to client, conducting Internet-based research, filing Freedom of Information Act requests, and more.

Research Assistants may work between 5-20 hours per week during business hours at SPI's office.

This position offers valuable research experience and insight into the government procurement arena. Please send resume and/or cover letter to jobs@spartnerships.com. Please include "Research Assistant for National Projects" in the subject line.
